Teachers can configure either:

Option #1: One Gallery for the Class

- A single gallery
- All students upload
- All students comment
- All students can manage (including delete!) all images uploaded by anyone

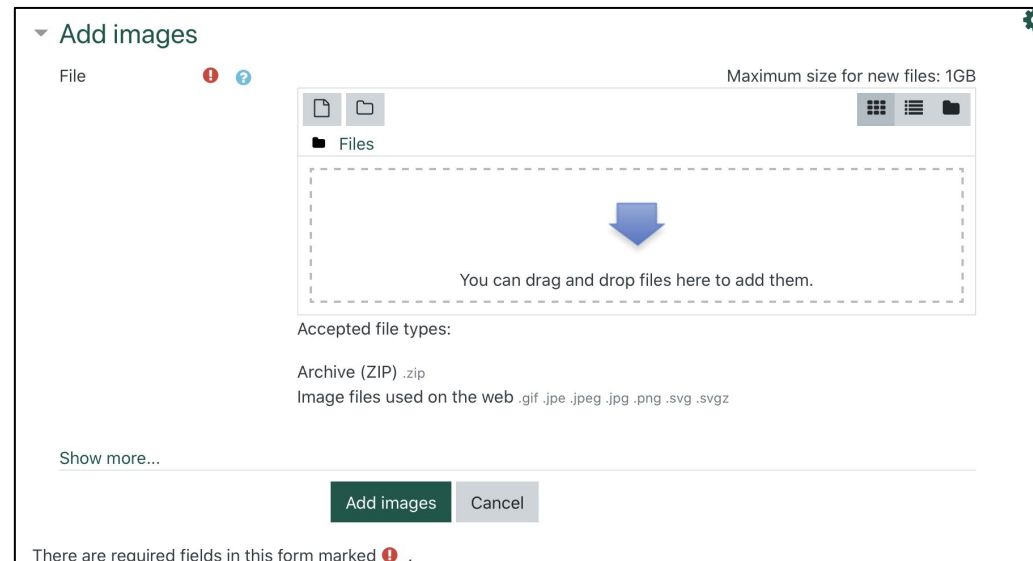

Option #2: One Gallery for Each Student

- Multiple galleries
- Each uploads to their gallery
- Others can comment on any image in any gallery
- Students manage their own gallery

Uploading Images

- Click to open a gallery to which you have teacher access (set up by your teacher)
- Click “Add images.”
- Choose and upload images as for any other file

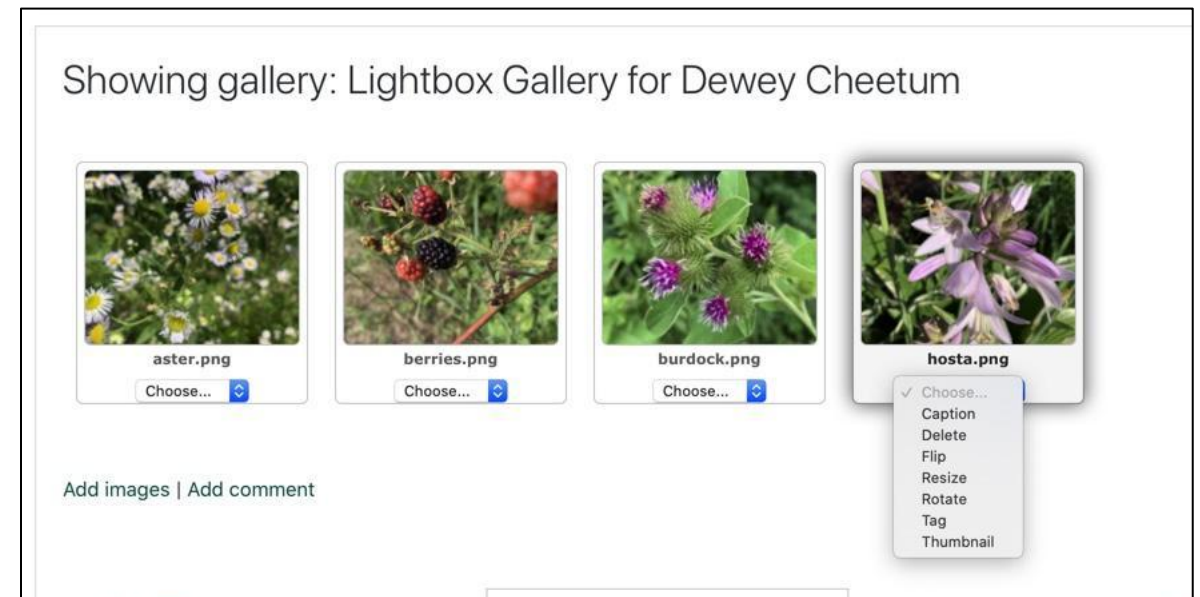

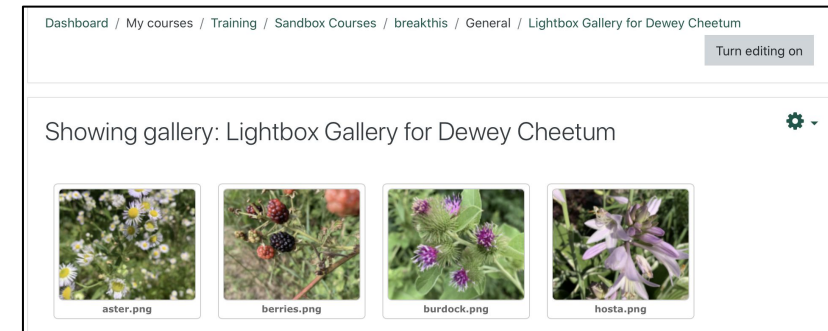

[Add images](#) | [Add comment](#)

The screenshot shows a modal window titled "Add images" with a gear icon in the top right corner. Inside the window, there is a "File" section with a red error icon and a help icon. To the right, it says "Maximum size for new files: 1GB". Below this is a file selection area with icons for a file and a folder, and a "Files" label. A large dashed box with a blue arrow pointing down contains the text "You can drag and drop files here to add them." Below the dashed box, it lists "Accepted file types:" and specifies "Archive (ZIP) .zip" and "Image files used on the web .gif .jpe .jpeg .jpg .png .svg .svgz". There is a "Show more..." link. At the bottom, there are two buttons: "Add images" (green) and "Cancel" (grey). A footer message at the bottom left states "There are required fields in this form marked [red error icon]".

Editing and Deleting Images

- Click the “Turn editing on” button in the top right of your gallery.
- Use the menu under pictures to edit or delete.

Commenting on Galleries

Lightbox gallery does not support comments on individual images

- Click to open a gallery.
- Click “Add comment.”
- Compose your comment, then click “Add comment.”
